Professional Career:

Architect and urban planner, she graduated from the ETSAM (Escuela Técnica Superior de Madrid) in 1999 and specialized in Construction in 2000. During her university years, she worked with international architects and took part in competitions in Germany with Molestina+Kraus GMPK; she attended various seminars and received several awards.

In 2004, after a few years working as a project manager and site architect, leading large teams and with the experience gained by working with Leoh Ming Pei in New York, she returned to Spain to run the Architecture and Urban Planning Office ftE Federico y Tatiana Echevarría with her father (founder of the Office). From the beginning she was committed to the Environment, Innovation and Excellence in architectural design and she implemented new Quality and Eco-design Systems. The Office became the second architectural Office in the world to be certified in the 150301:2003, current UNE-EN ISO 14006:2011.

In 2011, she earned a Master's Degree in PDD (Management Development Program) from IESE Business School, University of Navarra. She combines professional practice and collaboration with companies in the sector by promoting urban developments in Spain, Hungary and Portugal.

In 2013, she taught at the VII Edition of the Master in Collective Housing at Universidad Politécnica de Madrid.

She is currently devoted to the Office's expansion into International markets by developing projects outside of Spain in different continents and countries such as Peru, Equatorial Guinea, Panama, etc. and through participation in the PIPE program in collaboration with the Chamber of Commerce.
